Welcome Letter

With great pleasure and privilege we invite you to the 6th Southeast European Conference on Chemotherapy and Infection in Thessaloniki (Greece) in November, 2015.

The annual conference focuses on the treatment of Infection and Cancer by the performance of the appropriate Antimicrobial and Anticancer Chemotherapy, in south-eastern Europe. Its aim is promotion of new knowledge and collaboration of scientists working in this field and region of SE Europe. Through problem sharing and solving we pursue to increase international cooperation and broaden our horizons. To reach our goals the International Scientific Committee will prepare scientific program that will cover a broad spectrum of topics. Experts in basic and clinical sciences will shed new light on the latest developments in the fields of infectious diseases and oncology. On behalf of the International Scientific Committee we invite you to actively participate and share your knowledge with colleagues.

The 1st Congress of the new Mediterranean Society of Chemotherapy and Infection (MEDSOCHEMI), successor of the MSC, in parallel with to the 6th SEEC, will be held in the beautiful and historic town of Thessaloniki.

Thessaloniki is located in the north part of Greece overlooking the gulf of Thermaikos, it is the major Mediterranean port and has always been a crossroad of civilizations. Thessaloniki is called Queen of Balkans because of its diverse beauty and its hospitable people.

SEEC 2015 and MEDSOCHEMI will bring prominent scientist from SE Europe ,the Mediterranean and the neighbour countries together ,to serve as a gate and help share, promote the work and research and transmit knowledge and new treatments for infection and cancer in the region.The event will offer you an invaluable professional and personal experience. We are looking forward to seeing you in Thessaloniki.

George L. Petrikos,
Chair

Topics
